

Hi Dr. Moirao! I'm sorry to hear that you are removing yourself from the search but I support your decision. I have a plan to address the unethical behaviors of certain board members.

I hope you will
Address the board behavior

Thank you. I am not going away. What is happening in Merced is a crime against students. I cannot allow that. I can do more good from the outside and not being connected to the company then I can as the board's consultant.

Love it!
